

Jen Yetter

Master of Education in Higher Education Leadership

Why did you decide to go to Graduate School?

To work in higher education I knew that I would have to go to graduate school. I knew that I would have to find a program that helps me find a job after graduation, and then one that I found here at OU would help me with that.

Why did you decide to go to OU?

I loved OU when I transferred here as an undergrad. When I found the higher education program I knew that I wanted to apply, and that I would be happy in it. I really prefer this campus, I've felt at home here for a long time. I love being a part of this campus, being able to help out with student organizations is one of my favorite parts about my job.

What is your favorite part of being an OU Graduate student?

I love all of the events that I get to be a part of, both as a planner and as a student. One thing that I wish other universities had on other campuses is a Student Program Board. I think what they do is fantastic and I love helping them with events. I'm really glad that I get to be engaged in helping out other students.

Do you have any advice for students looking for a graduate assistantship?

Keep on applying, there is no harm in putting yourself out there and trying to get a position. Apply, apply, and apply!
