

Welcome to the 5th Annual Medical Education Week

Scholarship in Medical Education is a year-round focus at Oakland University William Beaumont School of Medicine. We dedicate the month of May to this important aspect of our mission and present the centerpiece of the May Medical Education Month with the annual William Davidson Medical Education Week. We invite everyone who is responsible for educating health professionals to attend.

This year's theme, "The Future of Medical Education," offers a greater breadth and depth of innovative sessions and competency-based learning experiences. Specifically, there will be discussions about global health and opportunities to learn more about hypothesis-driven research. We are extremely pleased to have an esteemed leader in medical education as the 2016 William Davidson Lecturer. James Woolliscroft, M.D., is the past dean of the University of Michigan Medical School and the recipient of the Abraham Flexner Award for contributing to the transformation of medical education in the modern age.

I am grateful to the 2016 Medical Education Week committee and the leaders who continue to dedicate themselves to making OUWB faculty development and medical education a high priority for this medical school. We challenge ourselves to deliver the outstanding programming, like Medical Education Week, that allows us to take advantage of recent advances in the science and technology of learning and to prepare our students for the rapidly evolving world of medicine.

I look forward to seeing you throughout the month as we participate in these programs that will enhance the knowledge and skills of our OUWB community for today and into the future.

Sincerely,

Robert Folberg, M.D.
Founding Dean, Oakland University William Beaumont School of Medicine
Chief Academic Officer, William Beaumont Hospital

Medical Education Week Mission Statement

Medical Education Week highlights innovative research and advancements in medical education at Oakland University William Beaumont School of Medicine. Its purpose is to honor faculty members who contribute to the improvement of medical education. This diverse and multifaceted program brings prominent speakers in the medical education field together to share their expertise over the course of three compelling days.

All of the sessions for the 5th Annual William Davidson Medical Education Week will occur at Beaumont Hospital, Royal Oak, unless otherwise noted.

Posters will be displayed at the following locations during the 5th Annual William Davidson Medical Education Week:

Oakland University - Second Floor, O'Dowd Hall
Royal Oak - Administration Building Lobby
Troy - Atrium Walkway
Grosse Pointe - Healing Garden

Poster abstracts are available at oakland.edu/medicine/meded

The mission of the Oakland University William Beaumont School of Medicine Center for Excellence in Medical Education (CEME) is to foster a culture of excellence among the biomedical sciences and clinical faculty members through focused faculty development activities with a shared commitment to better educate tomorrow's physicians.

This activity has been approved for meaningful participation credits.
