Description:

Communication skills are of critical importance in the medical field, as they impact interaction and cohesive practice with patients, their family members, and other healthcare professionals. This workshop will cover simple relaxation and breath techniques that teach learners to release habitual tension and feel more grounded and powerful when speaking, allowing for an easier expression of thoughts and ideas.

Objectives:

1. Describe the different factors that influence common speech constraints.
2. Demonstrate relaxation and breath techniques to improve speech techniques.
3. Apply these practices to enhance everyday verbal communication.

Target Audience:

Faculty, physicians, residents and fellows.
