Welcome to the Oakland University Project Management Program!

The Project Management course is designed for those interested in learning the core knowledge tested on the Project Management Institute's certification exams (PMP® and CAPM®) or simply for those interested in advancing their educational pursuit and project management knowledge. The mission of our program is to provide relevant content aimed at helping you become an ethical and knowledgeable project manager and foremost provide you with the most critical knowledge to achieve professional certification if desired.

There is an important piece of communication information needed by your instructor to get started in this course. Your instructor will provide you with some online support content if you provide this information. This information is sought because the online support portion of this course is available through our Oakland University online system called MOODLE. You will need to become familiar with how to log into our MOODLE System.

Please find the step-by-step process for logging into the MOODLE system and a link to the instructions below.
