

College of Arts and Sciences Advising Worksheet

PRE-MED (Not a Major)

GENERAL EDUCATION REQUIREMENT – requires one course of 3 or more credits in each area and a minimum total of 40 credits. See catalog for list of approved courses.

IMPORTANT NOTES:

Pre-medical Studies is a concentration, not a major. Students must choose and complete a major, as well as all university and College requirements in order to complete their degree. Any major is acceptable, although most students choose a science-based major such as Biology, as these majors include many of the courses required for the Pre-med concentration.

The pre-medical studies concentration provides the minimum requirements for admission to various medical, osteopathic, dental, optometry and veterinary schools, and provides the necessary background for the science based portion of the standardized aptitude tests: medical (MCAT), dental (DAT), optometry (OAT), and veterinary (VCAT or GRE).

Students are **strongly encouraged** to meet with the Pre-professional faculty adviser for counseling and assistance in planning their academic programs, to ensure they are staying on track for successful admission to a school of their choice.

2012-2013 Catalog

	Transfer	OU	Status	Credits
Arts				
Foreign Language and Culture				
Global Perspective				
Literature				
Natural Science and Technology		BIO 111		
Formal Reasoning		MTH 154		
Social Science
