

TREASURER'S REPORT

1. **Division and Department:** Finance and Administration, Budget and Financial Planning, Treasury Management, and Facilities Management
2. **General Fund Budget Performance:** Oakland University's (University) final FY2018 Fiscal Year Equated Student (FYES) enrollment, which reflects student credit hour production, was 2.8% below budget, with tuition revenue also slightly short of budget by approximately \$1.4M, .6% below budget. Monthly State appropriation payments, \$4,657,808, are being received according to the State of Michigan's Public Act 108 of 2017. General Fund expenditures for FY2018 are also slightly below budget, with no major spending variances in any division or unit. Pending the completion of the annual financial statement audit, the FY2018 General Fund budget is expected to end the year in a balanced position. The FY2019 General Fund Budget was approved by the Board of Trustees (Board) at their June 4, 2018 Formal Session.

A monthly budget monitoring process managed by the Budget and Financial Planning Office helps ensure budget management accountability.

3. **Investment Performance:** A summary of the results of the University's working capital and endowment investment activities is presented in the *Cash and Investments Report, June 30, 2018 and 2017* (Attachment A).

Investment performance associated with the working capital pool for the quarter ended June 30, 2018 was positive but slightly below benchmarks. Performance for the month of June was also positive and consistent with the benchmarks for the month.

The University's endowment portfolio performance for the quarter ended June 30, 2018 was positive and favorable compared to benchmarks. Positive performance in the equity and hedge fund asset classes were the primary contributors to the favorable quarterly performance. The June 2018 endowment balance was up over \$10 million compared to the June 2017 balance.

Results from NACUBO's FY2017 annual endowment survey revealed that the University's endowment portfolio exceeded the average investment performance of similar sized university endowments for the one, three, five, and ten year periods.

Liquidity of both the working capital and endowment investments remains strong. The University's investments are being managed according to the Board's policies.

The University's investment managers continue to adhere to a long-term investment strategy that focuses on outperforming identified benchmarks over time. The University's returns on Attachment A are conservatively reported net of fees whereas the benchmarks reflect gross returns.

5. **Construction Report:** The *Construction Report, July 31, 2018* (Attachment C) includes budget information, source of funding, forecasted final costs, and comments for all ongoing capital projects over \$500,000, as required by Board policy.
