

TREASURER'S REPORT

1. **Division and Department:** Finance and Administration, Budget and Financial Planning, Treasury Management, and Facilities Management
2. **General Fund Budget Performance:** Oakland University's (University) FY2019 Fiscal Year Equated Student (FYES) enrollment, which reflects student credit hour production, is approximately 1.6% over budget year-to-date. Accordingly, financial aid distributions are also over budget, primarily due to a higher than anticipated yield, strong retention of scholarship students, and the higher than projected FYES enrollment. Pending final summer enrollment, FY2019 net tuition revenue is projected to be slightly higher than budget. Monthly State appropriation payments of \$4,801,744 are being received on schedule, per the State of Michigan's Public Act 265 of 2018. General Fund expenditures are tracking consistent with budget and historical spending patterns at this point in the fiscal year, with no major spending variances in any division or unit.

A monthly budget monitoring process managed by the Budget and Financial Planning Office helps ensure budget management accountability.

3. **Investment Performance:** A summary of the results of the University's working capital and endowment investment activities is presented in the *Cash and Investments Report, April 30, 2019 and 2018* (Attachment A).

Investment performance associated with the working capital pool for the quarter ended March 31, 2019 was positive and slightly favorable compared to benchmark. Stronger than normal performance in the equity market was realized, as a rebound from the market selloff in the fourth quarter of 2018 took place during the latest quarter. Performance for the month of March was positive but fell slightly short of the overall benchmark.

The University's endowment portfolio performance for the quarter ended March 31, 2019 was very strong and consistent with benchmarks for each asset class. The April 30, 2019 endowment balance was \$6.5 million higher than the April 30, 2018 balance.

Final results from NACUBO's FY2018 annual endowment survey revealed that the University's endowment portfolio exceeded the average investment performance of similar sized university endowments for the one, three, five, and ten year periods.

Liquidity of both the working capital and endowment investments remains strong. The University's investments are being managed according to the Board's policies.

The University's investment managers continue to adhere to a long-term investment strategy that focuses on outperforming identified benchmarks over time.

The University's debt, which has a weighted average cost of capital of 3.68%, is being managed according to the Board's policies and approvals.
5. **Construction Report:** The *Construction Report, May 31, 2019* (Attachment C) includes budget information, source of funding, forecasted final costs, and comments for all ongoing capital projects over \$500,000, as required by Board policy. All projects have been properly approved and are within budget.
