**Note 5:**

**ORG 6900 - ST: Online-Symposium-Diversity (CRN 32566):** The topic of “diversity” is everywhere these days, but free discussion of the issue is hard to find. Yet, certainly a matter of this importance should be examined from all sides. This class is intended to provide an opportunity for open and robust discussion of diversity and the related matter of affirmative action, using a range of contemporary writings representing different perspectives. We'll look at issues like what does diversity really mean, what is the evidence that diversity benefits an organization, how do the mechanisms that promote diversity in an organization actually work, and why is there such a taboo around the issue of diversity. The class will take place on the internet, which provides a wonderful means for holding free discussion.

**Note 6:**

**MIS 6900 - ST: Leadership in Digital Age (CRN 33046):**With changes occurring today at a rapid rate among multiple environments (customer, technology, digital competitors, regulation, etc.), often referred to as digital age, organizations need a systematic and cumulative approach to cumulatively use learning from each new exploration to build organizational capacity to sustain competitiveness. Such cumulative learning a new type of leadership. In this course, the students will examine the role of one type of leadership - enabling leadership to create value to a customer (internal or external to the organization) and designs/develops a “digital service” (e.g. an App) for potential implementation using the methodology developed by the professor. *70% of the course grade depends on the digital service students will design with specific intermediate milestone deliverables for feedback and grading. Other parts of the grading include 15% class participation and 15% on final exam. An on-line version of the manuscript will be available to students (at no cost) along with readings provided on MOODLE.*
