

Oakland business school professional academic advisers provide advice to business students regarding these minors. Please note:

- A minimum grade of C is required for each course and any prerequisites for minor courses.
- Transfer students are required to take a minimum of nine credits in the minor at Oakland University and at least six of the nine credits must be 3000-level courses or higher.
- Students can choose a minor when filling out an application for major standing, any changes after that may be made with a major/minor change form.
