

# Using Classroom Supports/Technology to Support Learning

200A Elliott Hall (Learning Studio)  
12:00 – 1:30 p.m. Lunch provided

All sessions are facilitated by George Preisinger and Adam Gordon.  
Register at [oakland.edu/cetl/faculty-development/workshops](http://oakland.edu/cetl/faculty-development/workshops)

Thurs,  
Oct. 26

## Overview of Classroom Resources:

### Tips and Methods for Using a Variety of Available Tools

- Identify the technology available and how you can use it
- Explore BYOD options for student learning (students invited to “bring your own device”)
- Recognize how furniture influences the learning environment.
- Learn how room attributes and amenities can make the learning environment comfortable, productive, and safe.

Thurs,  
Nov. 2

## Whiteboarding: More Options than Meets the Eye

- Explore all the capabilities of the classroom’s wall-mounted whiteboard, plus some mobile options
- Learn multiple uses for the document camera
- Pair the whiteboard with computer options (Starboard, OneNote)

Thurs,  
Nov. 9

## Classroom Capture and Sharing Options:

### Why, What and How

- Understand why recording classroom content helps a variety of student and learning needs
- Identify the range of options for classroom capture, from audio and video to recording what is displayed on the computer
- Explore platforms that can make classroom capture possible such as Moodle (Panopto, WebEx), Skype/Google Hangouts, and hardware options.
