**Activate OU NetID and Email Accounts**

As an Oakland University student, you have been provided with an OU NetID and email account. If you have not already done so, you will need to activate your computing account and email. You can accomplish this by following the instructions below:

1. Obtain your Grizzly ID from the admissions portal system by clicking on the "Admitted Students" tab, then choose "Grizzly ID" from the left menu.

2. Visit the NetID Activation Site on Oakland University's website and follow those instructions. Note: Instead of finding your Grizzly ID number on your acceptance letter as the website states, you will find it by following the instructions in step 1.

3. Visit webmail.oakland.edu to log into your Oakland email using your NetID and password.
