

Residents as Teachers II: Educational Scholarship

Register Now For This Inaugural Program!

For Faculty & Resident/Fellow graduates of Residents as Teachers I, this advanced-level program will teach skills in medical education research, including how to formulating a testable research question, designing the study, applying for IRB approval, conducting the study, analyzing data, and disseminating results through posters, publications, and podium presentations. Participants will be expected to display a poster and present on their project during Medical Education Week.

The schedule consists of ten, 2-hour monthly sessions, beginning in August 2018 and finishing in May 2019 during Medical Education Week. All sessions will be held on Thursdays (unless otherwise noted) in OUWB Large Classroom A, in the Beaumont, Royal Oak Administration Building. Dinner will be available at 5:00 PM and sessions will begin at 5:15, ending at 7:15.
