I sincerely want to wish you and congratulate you on

You've got your ticket punched,

so now you can take that train ride into

your life and your career and do some wonderful things.

But before you do that,

I recommend you celebrate a little bit.

You are well deserving of it.

I wish you the best of luck and have a great life. Take care.

>> Hello, everyone. [BACKGROUND]

I'm just so happy to be here

to see how you're going to start the new chapter in your life.

I used to say in BFCP 1 and 2 that,

you study for your patient because it's amazing.

That's for sure, it is true.

But now, you're going to be working for and by your patient,

and that's the most rewarding experience.

I just wish you the best and keep in contact.

[FOREIGN].

>> Congratulations, class of 2021.

It seems like only yesterday you were doing your

M2 embark presentations,

which were awesome by the way,

but it also seems like a long time ago.

You've accomplished so much.

I am so proud of you.

I can't wait until you're able to come and see me in

person and tell me some more awesome microbiology stories.

Always remember your microbiology.

But again, I am so, so proud of you,

and congratulations from the bottom of my heart.

>> Haley, guess what?

>> What?

>> All those students there,  
they just became real doctors.

>> Wow. That's great.

I am making this prediction based on your potential.

Dream big and believe in yourself, you will make it.

Thank you very much and good luck to you.

>> Hi everyone. I wanted to take this opportunity to congratulate all of you on this tremendous accomplishment.

Not quite four years ago,  
after my final lecture to you and BFCP 1,  
I told your class that I came to OUWB for you.

Obviously, I didn't know you before  
your arrival but I felt I was  
pulled to OUWB to have the opportunity  
to work with students like you,  
and to get to know many of you personally.

Please know that I thoroughly enjoyed  
every minute that we shared.

I am honored to have had just a small role  
on your journey to becoming  
physicians and I wish you the best  
as you take the next step. I will miss you.

>> Congratulations to the graduating class of 2021.

It's been our great pleasure to teach you,  
work with you, and learn from you.

Throughout your four years at OUWB,  
your curriculum has promoted kindness,  
compassion, and communication.

During your residency training and beyond,  
we're confident that you'll live by that one golden rule to  
treat each and every patient the way you'd  
want your own loved ones to be treated.

You have what it takes to become

exceptional physicians and we're so very proud of all of you.

Congratulations.

>> Congratulations to the class of 2021.

You have all excelled in so many ways

during your time at OUWB.

in the traditional ways,

I truly hope you realize the amazing

contributions you have made.

Your hard work and dedication have paid off.

I know the future of medicine is better

because you are a part of it.

Keep on reaching for your goals and best of luck

in all of your future endeavors.

I'm excited to hear about your many successes.

Congratulations again, and cheers to your next journey.

>> Well, let me begin by offering my heartfelt

congratulations to you, class of 2021.

You'll certainly had an interesting time with things

this past year becoming physicians

in the middle of a pandemic.

If you aren't aware, 2021 is the year of the ox

in the Chinese Zodiac Calendar.

Though you may not have been born

under the sign of the ox,

I think some of the characteristics of the ox  
reflect what has been seen of your class.

Diligence, determination, recognition of the  
importance of both family and work.

Continue to value these things as you  
move forward in your careers.

Be true to your school and more importantly to yourself.

Continue to make the world a better place now than  
when you found it and you will know true success.

Good luck. My best wishes to you.

>> Congratulations doctors from everyone at OUWB.

We're so proud of you and can't wait to see you  
make your mark on medicine.

>> Hi, class of 2021.

will have great impact on physical healing.

>> Congratulations to the class of 2021.

We wish you all the best for the future.
