TREASURER'S REPORT

1. **Division and Department:** Finance and Administration Division, Budget and Financial Planning, Treasury Management, and Facilities Management Departments

2. **General Fund Budget Performance:** Oakland University's (University) final FY2013 enrollment exceeded projections by .6%. Monthly State appropriation payments exceeded budget by the Performance and Tuition Restraint funding amount of \$1,819,100, which was utilized to support student financial aid. General Fund expenditures tracked consistent with budget throughout the year, with no major spending variances in any division or unit.

FY2014 state appropriation funding was approved by the Governor via Public Act 60 of 2013. The University is scheduled to receive a performance funding appropriation increase of \$670,700, which equates to a 1.5% increase over FY2013 funding.

A monthly budget monitoring process managed by the Budget and Financial Planning Office helps ensure budget management accountability.

3. **Investment Performance:** A summary of the results of the University's pooled cash and endowment investment activities is presented in the *Cash and Investments Report, June 30, 2013 and 2012* (Attachment A).

Pooled cash, working capital, returns for the quarter and year ending June 30, 2013 tracked consistent with benchmarks, with positive returns across all investment categories.

The University has recently issued a Request for Information (RFI) to begin the process of selecting a working capital investment advisor with a recommendation to be presented to the Board of Trustees at a future meeting.

The University's endowment portfolio experienced positive returns for the fiscal year ending June 30, 2013, growing by over \$6 million compared to the prior year. Overall endowment performance, although strong, experienced under-performance compared to their benchmarks in some specific asset classes. Benchmark thresholds are generally more difficult to achieve during sustained periods of market volatility where larger performance swings in investment returns are common. Regardless of the market environment, the University's investment managers continue to adhere to the long-term investment strategy that focuses on outperforming identified benchmarks over time.

Liquidity of both pooled cash and endowment investments remains strong. The University's investments are being managed according to the Board's policies and approvals.

The University's debt is being managed according to the Board's policies and approvals.
5. **Construction Report:** The *Construction Report, June 30, 2013* (Attachment C) includes budget information, source of funding, forecasted final costs, and comments for all ongoing capital projects over \$500,000, as required by Board policy. All projects have been properly approved and are within budget.
6. **University Reviews/Approvals:** The Treasurer's Report and attachments were prepared by the Budget and Financial Planning, Treasury Management, and Facilities Management Departments, and reviewed by the Vice President for Finance and Administration and Treasurer to the Board of Trustees, and Interim President.

Debt covenant compliance:

The University has a general revenue covenant in many of its borrowing agreements including bonded debt and other capital debt.

These covenants are consistent in all University debt agreements and commit the University to maintain "General Revenues" to exceed the sum of twice annual debt service on senior debt and one times annual debt service on subordinate debt each fiscal year. At June 30, 2013, the University recorded \$239,006,944 (unaudited) in qualified General Revenues while the calculated debt service covenant requirement amounted to \$19,837,481. The University exceeds its debt covenant requirements by a multiple of 12.05.

| | Counterparty | Notional Amount | Termination Present Value | Counterparty Rating | Purpose/Comment |
|---|---------------------|--------------------|------------------------------|------------------------|--|
| Debt-Based Derivatives: | | | | | |
| Constant Maturity Swap (CMS) | JPMorgan Chase Bank | \$ 34,370,000 | \$ 3,167,142 | Aa3 | Yield curve swap paying about \$38,000 per month. |
| Interest Rate Swap - Synthetically Fix 2008 Bonds | Dexia Credit Local | 50,675,000 | (7,481,577) | Baa2 | Current low variable rates = High termination costs. |

The CMS is performing as expected because the yield curve is relatively normal at this time.

Current extremely low variable interest rates (0.13% annualized) drive up present values to terminate.

The Termination Present Value is dynamic, changing daily depending on interest rates and eventually becoming zero at the end of the swap agreement.

This Interest Rate Swap fixes the interest rate paid on the bond issue at 3.373% for the life of the bond issue (and the swap agreement).

Oakland University's underlying credit rating, according to Moody's Investors Service's Global Rating Scale, is A1 - Stable.

Bond Ratings:

Series 2004, Aaa based on the rating of the insurance provided at the time of issuance by Ambac Insurance.

Series 2008, Aa3 based on the letter of credit provider, currently JPMorgan Chase Bank.

Series 2009, A2 based on the University's underlying credit rating at the time the bonds were issued.

Series 2012, A1 based on the University's underlying credit rating at the time the bonds were issued.

Series 2013A and 2013B, A1 based on the University's underlying credit rating at the time the bonds were issued.

2. Projects are added to the report when a funding source has been identified and a plant fund is authorized for the project.
3. The project status will be reported as "completed" when the "actual expenditures to date" equals the "forecast". TMA work order system ties to Banner, and no additional expenditures or work is anticipated on the project.
4. A project whose status has been reported as complete to the Board will be removed from the report for the next Board meeting.

At this time, we request that the Board accept the gifts and pledges reported on the attached Gifts and Pledges Report, Attachment A, on behalf of the University.

3. **Previous Board Action:** The Board accepts gifts to Oakland University on a regular basis at its Formal Sessions.

4. **Budget Implications:** Gifts to the University supplement budgets, whether the gift is restricted to a specific area, or unrestricted.

5. **Educational Implications:** Some gifts are designated to fund specific academic programs.

6. **Personnel Implications:** Some gifts may be used for salary or support.

7. **University Reviews/Approvals:** All gifts are processed by the Office of Advancement Information Services and are reviewed by the Vice President for Development, Alumni and Community Engagement, prior to submission to the Board to ensure compliance with federal and state laws and regulations and University policies and procedures when applicable, with assistance from the Office of the Vice President for Legal Affairs when requested.
