

FISCAL YEAR 2014-15 HIGHER EDUCATION APPROPRIATIONS REPORT

**A REPORT TO THE
SENATE AND HOUSE APPROPRIATIONS
SUBCOMMITTEES ON HIGHER EDUCATION**

Prepared by:

**Bill Bowerman, Senate Fiscal Agency
Kyle I. Jen, House Fiscal Agency**

September 2014

APPROPRIATIONS SUBCOMMITTEES ON HIGHER EDUCATION

HOUSE SUBCOMMITTEE MEMBERS

Rep. Al Pscholka, Chair
Rep. John Walsh, Majority Vice Chair
Rep. Peter MacGregor
Rep. Rob VerHeulen
Rep. Sam Singh, Minority Vice Chair
Rep. Sean McCann
Rep. Andrew Kandrevas

SENATE SUBCOMMITTEE MEMBERS

Sen. Tonya Schuitmaker, Chair
Sen. Howard Walker, Majority Vice Chair
Sen. Morris Hood III, Minority Vice Chair

ACKNOWLEDGMENTS

Consistent with past practice, this report has been prepared to provide a precise record of how appropriation amounts in the FY 2014-15 Higher Education budget were calculated.

The report was prepared by Bill Bowerman, Associate Director, Senate Fiscal Agency, and Kyle I. Jen, Deputy Director, House Fiscal Agency.

Visit our web sites www.senate.michigan.gov/sfa or www.house.mi.gov/hfa, for a copy of this report.

A. OVERVIEW

In FY 2011-12, the Higher Education budget was merged into the compiled School Aid Act (as Article III of that act), rather than being enacted as a standard one-year budget bill. The FY 2014-15 budget continues the practice of including the Higher Education budget in the School Aid Act. The Senate and House used separate vehicle bills to develop the FY 2014-15 Higher Education budget. The Senate version of the budget was contained in Senate Bill 768. House Bill 5314 contained the House version and was also used for the enacted Higher Education budget (as well as the other two major education-related budgets). Table 1 provides an overall summary of the Governor's recommended budget, the Senate- and House-passed versions, and the budget as enacted.

B. UNIVERSITY OPERATIONS

Beginning with FY 2012-13, increases in funding for university operations have been allocated to individual universities using performance funding metrics. The performance funding formula has been used only to allocate year-over-year funding increases to Michigan's 15 public universities. Base appropriations are not directly affected by the formula, although the performance increases for each year have been rolled into the university's base amounts for the subsequent year. The FY 2014-15 increase for Higher Education includes distributing half the increase proportionally to universities based on FY 2010-11 appropriations due to the size of the increase and to account for the FY 2011-12 across-the-board reductions to Higher Education.

The original formula for FY 2012-13 was the product of a compromise between different formulas proposed by the Administration, House, and Senate for that year. Modifications were made to the formula as part of the FY 2013-14 and FY 2014-15 budget processes.¹ As the formula stands for the FY 2014-15 budget, it utilizes six performance metrics to allocate funding:

- Undergraduate degree completions in critical skills areas
- Research and development expenditures
- Six-year graduation rate
- Total degree completions
- Institutional support expenditures as a percentage of total core expenditures
- Pell Grant students

For the first two components listed, funds are allocated to the universities in direct proportion to the metric. For the final four components, each university receives a score based on how its performance compares with national public peers and funds are allocated in proportion to each university's total score, weighted by the size of the university's undergraduate enrollment.

¹ For more detailed information on Performance Funding, see a Senate Fiscal Agency report that can be accessed through the following link: <http://www.senate.michigan.gov/sfa/Publications/Notes/2014Notes/NotesSum14bb.pdf> as well as a July 2014 House Fiscal Agency memo at: http://www.house.mi.gov/hfa/PDF/HigherEducation/University_Performance_Funding_Formula_Memo_July2014.pdf.

Section 265a of the annual Higher Education budget act (MCL 388.1865a) describes the performance funding formula components in general terms, but the calculated performance funding amounts for each university are specifically appropriated in the budget act. These appropriation amounts are separate from the base ongoing operations appropriation for each university. Universities must comply with certain policy requirements in order to receive the performance funding amount.

More details on each of the performance metrics and requirements are provided below, focusing on the formula methodology utilized for the FY 2014-15 budget.

Funding Proportional to FY 2010-11 Appropriations

Fifty percent of the overall FY 2014-15 funding increase, equal to \$37.3 million, is distributed in proportion to FY 2010-11 appropriation amounts in order to recognize the significant reduction in appropriations made from FY 2010-11 amounts in the FY 2011-12 budget. This has nearly the same effect as an across-the-board increase but provides slightly more funding to universities that received smaller funding increases in FYs 2012-13 and 2013-14 (and slightly less to those that received larger increases in those years).

Undergraduate Degree Completions in Critical Skills Areas

For FY 2014-15, \$8.3 million (11.1% of the total university funding increase) is allocated based on the number of undergraduate degrees and certificates completed at each university in a critical skills area. Average weighted completions included in this component totaled 14,901, so each university receives \$557 per completion.

Data for this component is taken from the Federal IPEDS² database. (The same data is also included in the State's HEIDI³ database.) Calculations are made based on a two-year average for the most recent years available (FY 2011-12 and FY 2012-13).

Completions are weighted based on the length of time it normally takes to complete the undergraduate degree or certificate. Degrees and certificates are weighted as follows:

<u>Category</u>	<u>Weight</u>
Bachelor's Degree	1.000
Associate's Degree	0.500
Certificates of more than one but less than two academic years	0.375
Certificates of less than one academic year	0.125

² IPEDS stands for "Integrated Postsecondary Education Data System." The IPEDS public website is available at: <http://nces.ed.gov/ipeds/>.

³ HEIDI stands for "Higher Education Institutional Data Inventory." Summary HEIDI data is available at: http://www.house.mi.gov/hfa/PDF/HigherEducation/HEIDI_University_Summary_Data_fy08-09andfy12-13.pdf.

Program areas classified as "critical skills areas" are as follows:

- Agriculture, Agricultural Operations, and Related Sciences
- Architecture and Related Services
- Biological and Biomedical Sciences
- Communications Technologies/Technicians and Support Services
- Computer and Information Sciences and Support Services
- Engineering
- Engineering Technologies and Engineering-Related Fields
- Health Professions and Related Sciences
- Mathematics and Statistics
- Mechanic and Repair Technologies/Technicians
- Natural Resources and Conservation
- Physical Sciences
- Precision Production
- Science Technologies/Technicians
- Transportation and Materials Moving⁴

Research and Development Expenditures

For FY 2014-15, \$4.1 million (5.6% of the total university funding increase) is allocated based on the level of research and development (R&D) expenditures made at each of the seven universities classified as a "research university" under the Carnegie Classification of Institutions of Higher Education: Michigan State, UM-Ann Arbor, Wayne State, Michigan Tech, Western, Central, and Oakland. (More information on Carnegie Classifications is presented in the next section.) Research and development expenditures at the seven universities totaled \$1.3 billion, so the eligible universities receive performance funding at a rate of \$0.0032 per dollar of R&D expenditures.

Data for this component is taken from the Federal IPEDS database based on the most recent year available (FY 2011-12).⁵

Carnegie Peer Comparison-Based Metrics

For FY 2014-15, \$24.9 million (33.3% of the total university funding increase) is based on four metrics under which universities are compared with their national peers. The four metrics are six-year graduate rate, total degree completions, institutional support as a percentage of core expenditures, and Pell Grant students. Total weighted scoring across the four metrics is 1,825,242 points, so universities receive \$13.63 per weighted point.

⁴ Degree and certificate completions are reported based on the Federal Classification of Instructional Programs (CIP).

⁵ This component originated as a new proposal included during conference committee negotiations for the FY 2012-13 Higher Education budget.

Universities are scored on their performance relative to public universities across the nation that have been classified into the same Basic Classification under the system developed and periodically updated by the Carnegie Foundation.⁶ The primary basis for classification is the highest level (bachelor's vs. master's vs. doctoral) and quantity of instruction provided by a university. Level of research expenditure serves as a further basis for classification within the doctoral category. Under the 2010 edition of the classifications, Michigan's universities are classified as follows:

2010 Basic Carnegie Classifications	
Research Universities (very high research activity)	Michigan State University of Michigan - Ann Arbor Wayne State
Research Universities (high research activity)	Michigan Tech Western Michigan
Doctoral/Research Universities	Central Michigan Oakland
Master's Colleges & Universities (larger programs)	Eastern Michigan Ferris State Grand Valley Saginaw Valley University of Michigan - Dearborn University of Michigan - Flint
Master's Colleges & Universities (medium programs)	Northern Michigan
Baccalaureate Colleges-Diverse Fields	Lake Superior State

Scores for each of the four components are awarded as follows:

- 3 points for top 20 percent nationally
- 2 points for above the national median
- 2 points for improving over a three-year period

Language in Section 265a states legislative intent that the score for "improving over a 3-year period" will be reduced to 1 point for the FY 2015-16 budget. (The same language was included in the FY 2013-14 budget, but the change was not implemented for FY 2014-15).

Scores then are totaled across the four Carnegie-based components and multiplied by the total number of undergraduate fiscal year equated students (FYES; a full-time equated measure of enrollment) at each university to correlate funding increases with university

⁶ In recent years, the Carnegie Classification has been updated every five years, most recently in 2010. For more information, see this website: <http://classifications.carnegiefoundation.org/>.

size. Both resident and nonresident students are included in the undergraduate FYES count. FYES data is taken from the State's HEIDI database, utilizing the most recent year available (FY 2012-13).

The data utilized for comparisons with national peers is (by necessity) taken from the Federal IPEDS database. This creates a longer data lag. For the FY 2014-15 budget, FY 2010-11 data is utilized for the comparisons, with improvement being measured from FY 2007-08 to FY 2010-11. (The exception is the Pell Grant component, for which the comparison is over a two-year period because reporting of the data to IPEDS is mandatory only every other year.)

Over the three years the performance formula has been utilized, all calculations for the Carnegie-based components have been conducted by the Andersen Economic Group in conjunction with the Business Leaders of Michigan and the Presidents Council, State Universities of Michigan. The State Budget Office, and House and Senate Fiscal Agencies utilize the scoring provided by those organizations in determining appropriation amounts throughout the State budget process.

The four Carnegie-based data components are as follows:

Six-Year Graduation Rate

Federal graduation rates measure the percentage of first-time, full-time, degree-seeking students at an institution that complete a bachelor's degree within six years at the same institution. The rates are based on the group of students who started college six years prior to the year for which the rates are reported (FY 2004-05 for the FY 2010-11 rates). (Rates are also collected based on four- and five-year periods.)

For the FY 2014-15 budget, four of the 15 universities were in the top 20% nationally for this measure and four were above the national median. Of the remaining seven universities, four had improved over the relevant three-year period.

Total Degree Completions

This data component captures total degree and certificate completions at each university, including both undergraduate and graduate programs. Degrees and certificates in all program areas are included.

For the FY 2014-15 budget, seven of the 15 universities were in the top 20% nationally for this measure and three were above the national median. Of the remaining five universities, two had improved over the relevant three-year period.

Institutional Support as a Percentage of Core Expenditures

This data component serves as a measure of administrative efficiency. Under the Federal IPEDS database, "core expenditures" are defined (in part) as "Total expenses for the essential education activities of the institution". Institutional support is defined as:

A functional expense category that includes expenses for the day-to-day operational support of the institution. Includes expenses for general administrative services, central executive-level activities concerned with management and long range planning, legal and fiscal operations, space management, employee personnel and records, logistical services such as purchasing and printing, and public relations and development. Also includes information technology expenses related to institutional support activities. If an institution does not separately budget and expense information technology resources, the IT costs associated with student services and operation and maintenance of plant will also be applied to this function.

For the FY 2014-15 budget, one of the 15 universities was in the top 20% nationally for this measure and six were above the national median. Of the remaining eight universities, three had improved over the relevant three-year period.

Pell Grant Students

This metric was added in FY 2014-15. The data component serves as a measure of access for low-income students. The Pell Grant is a Federal financial aid grant awarded based on student financial need. This is a gross measure of low-income student enrollment, with no control for university size, so a smaller university will face a larger challenge in reaching the top 20% or median marks nationally.

For the FY 2014-15 budget, seven of the 15 universities were in the top 20% nationally for this measure and four were above the national median. All four of the remaining universities had improved over the relevant three-year period.

Performance Funding Requirements

In order to qualify for the funding increase allocated to each university for FY 2014-15 (including both the proportional amounts and the performance-based amounts), a university must comply with four policy requirements:

- Comply with tuition restraint requirements under section 265 of the budget, which includes limiting the increase in resident undergraduate tuition and fees for FY 2014-15 to no more than 3.2%.
- Certify that the university participates in reverse transfer agreements with at least three Michigan community colleges (or has made a good faith effort to do so). A reverse transfer agreement allows a student who transfers from a community college to a four-year university and subsequently completes sufficient credits to receive an associate's degree to be awarded that degree by the community college.
- Certify that the university's dual enrollment policy does not consider use of dual enrollment courses toward high school graduation requirements as a consideration for awarding college credit for the courses.
- Participate in the Michigan Transfer Network, an online service for students that provides course transfer equivalencies across all public colleges and universities and most independent colleges and universities in the State.

Universities must certify that they have complied with these requirements by August 31, 2014. Any funds forfeited due to noncompliance will be reallocated to compliant universities in proportion to their FY 2014-15 funding increase amounts.

On September 2, 2014, the State Budget Director reported that all universities had certified their compliance with performance funding requirements, including tuition restraint of 3.2%. (See Table 11.)

C. MICHIGAN PUBLIC SCHOOL EMPLOYEE RETIREMENT SYSTEM (MPERS) REIMBURSEMENT

The FY 2013-14 budget included \$2.4 million, \$446,200 funded from the School Aid Fund and \$2.0 million funded from GF/GP revenue, to partially offset MPERS retirement contributions required from universities with employees in the retirement system (Central, Eastern, Ferris, Lake Superior State, Michigan Tech, Northern, and Western). The FY 2014-15 budget maintained the \$2.4 million appropriation and added \$4.0 million in one-time funding from the State School Aid Fund. Boilerplate (Sec. 246) provides that amounts allocated to each university will be based on each participating university's percentage of total combined payrolls of the universities' employees who are members of the MPERS and who were hired before January 1, 1996 and the universities' employees who would have been members of the MPERS on or after January 1, 1996, but for the enactment of 1995 PA 272 for all public universities that are participating public universities for the immediately preceding fiscal year. Prior to FY 2014-15 allocations of MPERS funding were based on each participating universities' total retiree health care premiums paid for MPERS' retirants in proportion to the total retiree health care premium for all participating universities for the immediately preceding fiscal year.

D. INDIAN TUITION WAIVER PROGRAM

The FY 2014-15 budget includes a new \$500,000 appropriation for North American Indian Tuition Waivers due to the fact that State appropriations have not kept pace with actual costs. In FY 2013-14, universities absorbed \$4.7 million of waiver costs. Funding is to be prorated based on each university's funding shortfall (actual costs compared to appropriations).

In FY 1996-97, funding totaling \$2.4 million was added to university base appropriations for costs incurred by the universities under Public Act 174 of 1976, the Indian Tuition Waiver Act. Additional funding of \$1.4 million was allocated for this purpose in FY 2007-08. Table 7 lists, for each university, the FY 1996-97 tuition waiver amount added to the university operations base funding, the FY 2007-08 allocation amount, and a column for across-the-board adjustments to university appropriations since FY 1996-97. Half of the FY 2014-15 State appropriation increases for university operations were based on an across-the-board increase (funding increase proportional to FY 2010-11 State aid for university operations). Therefore, a 2.95% increase was made to estimated amounts in operation line items for the Indian Tuition Waiver Program.

Note that these calculations reflect historical appropriation adjustments related to Indian Tuition Waivers, but the Higher Education budget does not contain language formally allocating university operations funding for that purpose. However, for FY 2014-15, \$500,000 GF/GP has been appropriated to offset a portion of the shortfall. The FY 2014-15 budget also continues allocations to Bay Mills Tribal College (\$100,000) and to Saginaw Chippewa Tribal College (\$29,700) for tuition waiver costs that are passed through the appropriations to Lake Superior State University and Central Michigan University, respectively, under budget article language.

E. MARTIN LUTHER KING, JR.-CESAR CHAVEZ-ROSA PARKS INITIATIVE

Based on the across-the-board component to university operations, FY 2014-15 allocations for College Day, Future Faculty Fellowships, and Visiting Professors are increased by 2.95% pursuant to boilerplate language. No adjustment was made to amounts appropriated to King-Chavez-Parks programs under the grants component (Sec. 236(7)) of the higher education budget. Table 8 provides an overview of funding for King-Chavez-Parks program components. Table 9 lists the dollar amounts allocated from each university's operations appropriation for the College Day, Future Faculty, and Visiting Professors Programs.

F. MSU AGBIORESEARCH AND EXTENSION

The AgBioResearch and Extension programs operated by Michigan State University provide services throughout the State. FY 2014-15 appropriations for these programs were increased by \$3.3 million (5.9%). FY 2014-15 appropriation amounts are \$32.0 million for MSU AgBioResearch and \$27.6 million for MSU Extension. Boilerplate sets performance goals for the program (Sec. 263a).

G. STATE COMPETITIVE SCHOLARSHIPS

Public Act 208 of 1964 created the State Competitive Scholarship Program, which provides grants to students who score well on the American College Test (ACT) and have demonstrated financial need. The FY 2014-15 appropriation for the program was maintained at \$18.4 million. The maximum award amount specified in boilerplate language (Sec. 251) remains at \$575, although the Department of Treasury was able to increase the maximum award amount for FY 2014-15 to \$676 (from \$630 in FY 2013-14) due to a decline in the number of eligible students.

For all three major State financial aid programs, State-level support continues to be funded primarily with Federal Temporary Assistance to Needy Families (TANF) funding in order to improve the State's ability to meet federal TANF maintenance-of-effort (MOE) requirements.

H. TUITION GRANTS

Public Act 313 of 1966 created the Tuition Grant Program, which provides grants to students with demonstrated financial need enrolled at Michigan independent colleges and universities. The FY 2014-15 appropriation for the program was increased by \$1,867,800 GF/GP (5.9%), from \$31,664,700 to \$33,532,500. Provisions capping total awards at any institution at \$3.0 million were increased to \$3.2 million. The cap impacts awards to students at Baker College and Davenport University. The maximum award amount specified in boilerplate language (Sec. 252) remains at \$1,512, although the Department of Treasury was able to increase the maximum award amount for FY 2014-15 to \$1,626 (from \$1,524 in FY 2013-14) due to a decline in the number of eligible students.

See statement under State Competitive Scholarships regarding TANF funding.

I. TUITION INCENTIVE PROGRAM

The Tuition Incentive Program (TIP) promises to pay two years of Associate's Degree tuition (Phase I) and up to \$2,000 at a four-year institution (Phase II) for Medicaid-eligible middle school and high school students who proceed to graduate from high school. The FY 2014-15 appropriation was increased by \$1.5 million GF/GP to a new level of \$48.5 million based on a projected continued increase in the number of eligible students.

See statement under State Competitive Scholarships regarding TANF funding. However, the FY 2013-14 \$3.2 million increase and the FY 2014-15 \$1.5 million increase have been funded from GF/GP revenue.

J. CHILDREN OF VETERANS TUITION AND OFFICER'S SURVIVOR TUITION GRANT PROGRAMS

Public Act 248 of 2005 established a new Children of Veterans Tuition Grant Program (CVTGP) to replace a program that had been created by Public Act 245 of 1935, which was repealed. Public Act 195 of 1996 established the Officer's Survivor Tuition Grant Program. Both programs are now funded in the Higher Education budget. For FY 2014-15, total funding for the programs was maintained at \$1.4 million. Of that amount, \$100,000 is appropriated from contributions through the income tax check-off for the CVTGP, with the remainder funded from the GF/GP funds.

K. COLLEGE ACCESS PROGRAM

In FY 2013-14, an appropriation of \$2.0 million GF/GP for the College Access Program was transferred from the Department of Education budget to the Higher Education budget, with no net increase in State appropriations. This funding is provided as a grant to the Michigan College Access Network, which seeks to increase college readiness, participation, and completion in Michigan through local college access networks, an online one-stop portal, public awareness campaigns, and other efforts. This grant was previously funded through Federal revenue; Federal funds were forfeited and replaced with State GF/GP funding due to violation of Federal maintenance-of-effort requirements. The FY 2014-15 appropriation continues funding for this program at \$2.0 million GF/GP.

L. OTHER APPROPRIATIONS ITEMS

Appropriations for Project GEAR UP (\$3.2 million in Federal funds), and \$95,000 GF/GP for dues to the Midwestern Higher Education Compact were maintained at the FY 2013-14 level. Funding for Higher Education database maintenance was increased by \$95,000, from \$105,000 to \$200,000, in order to continue improvements in system functionality.

M. BOILERPLATE REPORTS

Table 12 in the final section of this report provides a detailed list of reports required from public universities and other entities under the FY 2014-15 Higher Education budget article.

Table 1: FY 2014-15 HIGHER EDUCATION APPROPRIATION (2014 PA 196)

University	FY 2013-14 Year-To-Date	Governor			Senate			House			Initial Appropriation		
		FY 2014-15 Gov. Rec.	Dollar Change	Percent Change	FY 2014-15 Senate	Dollar Change	Percent Change	FY 2014-15 House	Dollar Change	Percent Change	FY 2014-15 Initial	Dollar Change	Percent Change
Central	\$73,540,100	\$79,283,400	\$5,743,300	7.8%	\$79,283,400	\$5,743,300	7.8%	\$78,800,700	\$5,260,600	7.2%	\$79,115,000	\$5,574,900	7.6%

- Notes:
1. Spreadsheet developed and designed by the State Budget Office, DTMB.
 2. The Business Leaders for Michigan (BLM)& Anderson Economic Group (AEG) is the source of all Carnegie-scored data. Methodology also provided by BLM/AEG. All data are from FY11, with growth compared to FY08, except Pell Grants, which compares FY11 to FY09.
 3. Funding proportional to FY11 provides an across the board increase.
 4. Data for critical skills awards are from HEIDI. Average of FY12 and FY13 reported data. Methodology from FY14 enacted formula.
 5. Data for research & development expenditures are from IPEDS from FY12. Methodology provided by BLM/AEG.
 6. Institutional support as a percentage of core expenditures measures administrative spending. A lower percentage yields a better score.

General Note: Per HEIDI reporting requirements, and consistent with Sec. 265 of the State School Aid Act, rates are reported based on four class levels. Rates are based on 30 credit hours (15 in Fall, 15 in Winter/Spring) and exclude fees not paid by a majority of students in a given class (most course fees), as well as refundable fees.

University-Specific Notes: **Eastern** - \$212 out of \$300 fee for incoming freshmen excluded from rate in both years, as that amount effectively replaced previous orientation fee. **Ferris** - Increases of 2.2% for freshman/sophomore rates and 3.7% for junior/senior rates. **Michigan Tech.** - Assumes engineering and computer science major (majority of Michigan Tech. enrollment): Upper division differential fee (\$900/semester) replaces previous program fee for sophomores/juniors/seniors (\$755/semester). **UM-Ann Arbor** - Rates are for College of Literature, Science, and Arts. **UM-Dearborn** - Rates are for College of Arts, Sciences, and Letters.

BOILERPLATE REPORT REQUIREMENTS

Table 12: REPORTS REQUIRED BY BOILERPLATE: FY 2014-15 HIGHER EDUCATION BUDGET

Section	Subject of Report	Reporting Entity	Report Recipient(s)	Due Date
241(2)	Higher Education Institutional Data Inventory (HEIDI) data submission	Public universities	State Budget Director	October/November/December 15, 2014
245	Various financial, compensation, campus security, academic, and transfer policy information	Public universities	University websites	Updated 30 days after university budget adopted or after revision to budget
245(6)	Opportunities for high school students to earn college credit	Public universities	Center for Educational Performance and Information; university websites	November 15, 2014
251(2)	Additional funds needed to establish \$575 maximum award for State Competitive Scholarship (if funds appropriated are insufficient)	Department of Treasury	HAC and SAC Subcommittees on Higher Education; HFA; SFA; State Budget Director	Immediately upon determination
252(3)	Additional funds needed to establish \$1,512 maximum award for Tuition Grant (if funds appropriated are insufficient), or projected balance with \$1,512 award amount	Department of Treasury	HAC and SAC Subcommittees on Higher Education; HFA; SFA; State Budget Director	Immediately upon determination
252(3)	Status of and adjustments to Tuition Grant award commitments	Department of Treasury	HFA; SFA; State Budget Director	February 28, 2015
252(8)	Student performance measures for Tuition Grant and Pell Grant recipients	Independent colleges and universities	Department of Treasury	August 31, 2015
258	Award information for student financial aid programs	Department of Treasury	Publicly available website	February 15, 2015
262a	Policies developed for reviewing required textbook and course materials	Public universities	HAC and SAC Subcommittees on Higher Education; HFA; SFA	February 1, 2015
263a	Expenditures, metric goals, and program review for MSU AgBioResearch and Extension	Michigan State University	HAC and SAC Subcommittees on Higher Education and ARD; HSC and SSC on Agriculture; HFA; SFA; State Budget Director	September 30, 2014
265	Certification that tuition/fee rate actions satisfy tuition restraint requirements	Public universities	State Budget Director; HAC and SAC Subcommittees on Higher Education; HFA; SFA	August 31, 2014
265a(1)	Certifications to quality for performance funding: reverse transfer agreements, dual enrollment policy, Michigan Transfer Network	Public universities	State Budget Director; HAC and SAC Subcommittees on Higher Education; HFA; SFA	August 31, 2014
