Moodle Instructions

Accessing an eLearning Course at Oakland University

1. Determine what **Internet Browser** you are currently using.
   a. The recommended browser is **Mozilla Firefox.**
   b. If you do not have Firefox, you can download it for free at www.mozilla.com.

2. Go to the Oakland University Moodle homepage: http://moodle.oakland.edu

3. Type in your **NetID username**, which is the first part of your OU e-mail address.

4. Type in your **NetID password**, which is the same as your e-mail password.

5. Click on **Login to Moodle** to enter into your Moodle main page.
   Note: If you do not remember your E-Mail account user name and/or password,
   click on Forgot your password, towards the bottom of the page. In the new window, click on Continue
   to Change/Reset/Obtain Password and follow the few simple steps.

6. Review the important information and updates on the left side of your Moodle homepage.

7. Review the courses you are a member of on the right side of your Moodle homepage.

8. Select the desired class by clicking on the course title. Follow the links inside to access all course content including syllabus, assignments, discussions posts, etc.

Additional Resources and Information

For any questions regarding your NetID & password, please contact the UTS Helpdesk by email at: helpdesk@oakland.edu or by phone: (248) 370-HELP (4357).
