

# HealthbyChoice Achievements

## Tips for completing your form

With the **HealthbyChoice Achievements**<sup>®</sup> plan, one of your requirements is to visit your doctor to have them complete your **HealthbyChoice Achievements** form. This form collects general information about your health and you may need to have lab work done in order to complete this requirement. Listed below are some tips to make it easier for you and your provider to complete the HealthbyChoice Achievement form.

1. Before your visit let the office staff know you're participating in the HealthbyChoice Achievements plan and will be bringing in a form for them to fill out.
2. Services identified in Priority Health's Preventive Guidelines will be covered at 100% when performed by an in-network provider.
3. Your deductible, copayment and coinsurance may apply if you receive services listed under Priority Health's Preventive Guidelines for diagnostic reasons (to monitor, or treat health problems) or if you have a preventive service done that is not listed under Priority Health's Preventive Guidelines.
4. Common labs covered at 100% (if billed with a preventive diagnosis code) under Priority Health's Preventive Guidelines.
  - 82465 – Cholesterol Blood Test
  - 82947 – Glucose Blood Test (Fasting)
  - 80061 – Lipid Panel
5. Common labs that are not covered at 100% and are subject to your deductible, copayment and coinsurance.
  - 83036 – Hemoglobin; Glycated (HbA1c test for diabetic patients)
  - 80053 – Comprehensive Metabolic Panel
  - All Continine tests (for tobacco users following quitting)
6. Discuss with your provider the labs they order and why they may be necessary for you.
7. For a full list of services covered at 100% under the Priority Health Preventive Guidelines visit [priorityhealth.com](http://priorityhealth.com)

**Questions?** We're here to help. Contact Customer Service by calling the phone number on the back of your ID card.
